English , Malayalam

I am eager to contribute my strong work ethic, creativity, and problem-solving skills to the success of Organization. Your organization's reputation for fostering a culture of innovation and growth aligns perfectly with my career aspirations, making it an ideal place for me to begin my journey as a Full Stack Developer.

INTERNSHIP EXPERIENCE

Luminar Technolab, Python Full Stack Developer Intern

December 2023 – July 2024 | Kakkanad, India

- Developed dynamic web applications using Python and Django framework, focusing on backend logic and database management.
- Designed and implemented RESTful APIs to facilitate seamless communication between frontend (React.js) and backend systems.
- Collaborated closely with frontend developers to integrate user-facing elements with server-side logic, ensuring smooth user experience.
- Implemented authentication and authorization mechanisms using Django authentication system and JWT tokens.
- Optimized application performance through database query optimization and caching strategies, resulting in improved response times.
- Participated in Agile scrum meetings and contributed to sprint planning, showcasing strong teamwork and communication skills.

PROJECTS

Zemheri Cars, E-commerce

Used Car Shop Django Project: A platform allowing users to browse, search, and inquire about pre-owned vehicles with CRUD operations and user authentication
